

Questions to ask your doctor about your vision loss

Having a list of questions handy can help you make the most of your doctor appointment.

- What is LHON?
- Will my condition get worse?
- Can I ever gain my vision back?
- Can I take any medication to make my condition better?
- Whom can I speak to for support?
- Are there any organizations that support people with LHON?
- Will I need assisted living for life?
- Is there any additional information my family should be aware of?
